WORK EXPERIENCE

Skelar (Leaply) **Remote, Ukraine**
Marketing Motion Designer May 2026 – Present

- Develop and produce high-velocity short-form video ads and static creatives for global User Acquisition (Meta, TikTok, Snapchat, Web Funnels), turning creative concepts into polished advertising content across multiple formats.
- Architect and leverage scalable generative AI pipelines (Kling, Higgsfield, Seedance, Nano Banana, ElevenLabs) to create custom imagery, characters, and b-roll, slashing production turnaround by 50%.
- Drive end-to-end video production from raw assets to final delivery via advanced 2D motion graphics, kinetic typography, compositing, and audio mixing, optimizing 3-second hook rates and creative performance.

Devabit **Lviv, Ukraine**
DTP Engineer, Multimedia Dec 2024 – May 2026

- Prepared and finalized multimedia assets for a global localization pipeline, ensuring visual accuracy and consistency across multi-language video deliverables.
- Built automated workflows and custom scripts for transcription, subtitling, and AI-assisted processing, cutting manual turnaround by 60% across high-volume campaigns.
- Applied generative AI to enhance and clean up source footage, and to produce and integrate voiceover content into final deliverables.
- Developed custom scripts and tools to streamline document and media processing, improving consistency across high-volume projects.

Placard **Lviv, Ukraine**
Technical Graphic Designer Dec 2023 – Dec 2024

- Designed visual materials, vector artwork, and technical layouts for large-format outdoor banners, commercial displays, sticker packs, industrial decals, and branded print products.
- Managed the full print production lifecycle from initial design to final production, ensuring designs met both creative and practical requirements.
