Professional Summary

Marketing Motion Designer with a Computer Science & AI degree and 3+ years combining high-converting visual storytelling, performance User Acquisition (UA), and GenAI automation. Proven impact at tech venture builder Skelar (Leaply), developing top-funnel video creatives across Meta, TikTok, and web funnels. Pioneer in architecting hybrid GenAI pipelines (Kling, Midjourney, Higgsfield, ElevenLabs, ComfyUI) and custom automation tools to accelerate creative velocity while driving lower CAC and higher ROAS.

Work Experience

Skelar (Leaply) — Marketing Motion Designer & AI Creative Specialist — May 2026 – Present | Remote, Ukraine

- **High-Impact Creative Production:** Ideate, script, and produce high-velocity short-form video ads and static creatives for global User Acquisition (Meta Ads, TikTok, Snapchat, Web Funnels) in the Health & Wellness niche.
- **GenAI Pipeline Architecture:** Engineered scalable generative AI pipelines integrating Kling, Higgsfield, Seedance, Nano Banana, and ElevenLabs to generate photorealistic assets, UGC characters, and b-roll, slashing creative production turnaround by over 50%.
- **Data-Driven Iteration & Post-Production:** Partner with UA managers to test 25+ concept variations weekly, optimizing 3-second hook rates, CTR, and CPA. Execute advanced 2D motion graphics, kinetic typography, audio mixing, and multi-format adaptations (9:16, 1:1, 16:9).

Devabit — DTP Engineer & Multimedia Specialist — Dec 2024 – May 2026 | Lviv, Ukraine

- **Enterprise Multimedia Localization:** Prepared and finalized localized video and multimedia assets for global enterprise clients, ensuring visual consistency and typographical precision across multi-language deliverables.
- **Workflow Automation & AI Integration:** Built custom scripts and automated pipelines for transcription, subtitling, and media encoding, cutting manual turnaround by 60%. Applied GenAI to enhance source footage and integrate multilingual voiceovers.

Placard — Technical Graphic Designer & Prepress Specialist — Dec 2023 – Dec 2024 | Lviv, Ukraine

- **Large-Format Design & Prepress Production:** Designed vector artwork and technical layouts for outdoor advertising, commercial displays, vehicle decals, and retail collateral. Managed preflight calibration, color profiles (Pantone/CMYK), and die-cut tooling.

Core Competencies & Technical Skills

Motion & Video: After Effects, Premiere Pro, Figma, Photoshop, Illustrator, Cinema 4D/Blender (foundations), Kinetic Typography, Compositing, Color Grading, Sound Design.
